

## UNITED WE HELP CHILDREN REALIZE THEIR POTENTIAL

LIVE UNITED\*

Last school year, Danny attended his local school's Parks & Recreation program for after school care.

Danny is overweight for his age and was constantly getting picked on and bullied by his peers for his appearance and athletic ability.

Danny's mom visited the Boys & Girls Club to inquire about their program offerings. After getting a tour of the Club and speaking with the Director, she decided to pull Danny from his previous program and enroll him at the Boys & Girls Club.

In just a few weeks, Danny's mom expressed how much happier her son was, now that he's attending the Club.

He comes home with a smile rather than tears because he is making friends and not getting bullied.

After a few months of attending the afterschool and camp programs, his mom mentioned how not only has Danny lost almost 15 pounds since enrolling in the program, his teachers have also noticed improved decision making skills.

Overall, Danny is happier and healthier since joining the Boys and Girls Club program and exhibits much more confidence and autonomy while in their care.
